COLOUR & TEXTURE GUIDE

'Created by Nature, Wrapped by Artisans'

Mashakpiper Leathers Pvt. Ltd. is the first Indian indigenous company that provides a one window solution for all types of leather upholstery needs. We deals in wide range collection of finished buff and bovine Leather hides with spectrum of colours, finishes & textures options available.

Innovation and customization are our biggest strengths. We adhere to all export quality testing parameters from raw hide selection to finishing & delivering the best quality with maximum yield leather hides.

Why Leather :

Reduce wastage by reusability

Natural by-product of food industry, Sustainable

Ageless, Durable, Sturdy

Abrasion-dust-Fungal resistant, High performance, easy to repair, depth of patina with age," buy less, Choose well, Make it last".

Water absorption & desorption

Breathability, easy to clean, protection from stain & humidity

Vintage beauty

Always in style, Aesthetically pleasing, feels characterful, confidence & values.

Luxurious

Appreciate in value, Signature smell, intrinsic value of quality & superiority

Fire Retardant

Shrinkage temperature is 85-100° C protects against any accidents or cigarettes.

Wear & Chemical Analysis :

Test	Specification	Parameter	Guaranteed Result
Thickness	ISO 2589	mm	0.9 - 1.1 mm (Except Gamma & King Gamma Series)
Colour Fastness to Rubbing Dry - 500 Cycles	BS EN ISO 11640 : 2012	Grey Scale	≥ 4
Colour Fastness to Rubbing Wet - 250 Cycles	BS EN ISO 11640 : 2012	Grey Scale	≥ 4
Tear Strength Single Edge Tear	BS EN ISO3377-1 : 2011	N	≥ 25
Colour Fastness to Light	BS EN ISO 105 B01 : 2014	Blue Scale	≥ 5
Adhesion of Finish	EN ISO 11644 : 2009	N/cm	≥ 2
Flexing Endurance - Dry	BS EN ISO 5402-1 : 2011	Flexes	> 50000
Cold Cracking	ISO 17233	-20°C	Pass
Tropical Test	ISO 17288 : 2015 72 Hrs at 60°C at 85% RH (Method 7G)	Grey Scale	≥ 4
Tensile Strength	BS EN ISO 3376	N/mm2	≥ 10
PVC Migration	BS EN ISO 15701 : 2015	Grey Scale	≥ 4
Heat Ageing	EN ISO 17227	Grey Scale	≥ 4
Chromium VI After Ageing	ISO 17075 : 2017	Mg/Kg	≤ 3

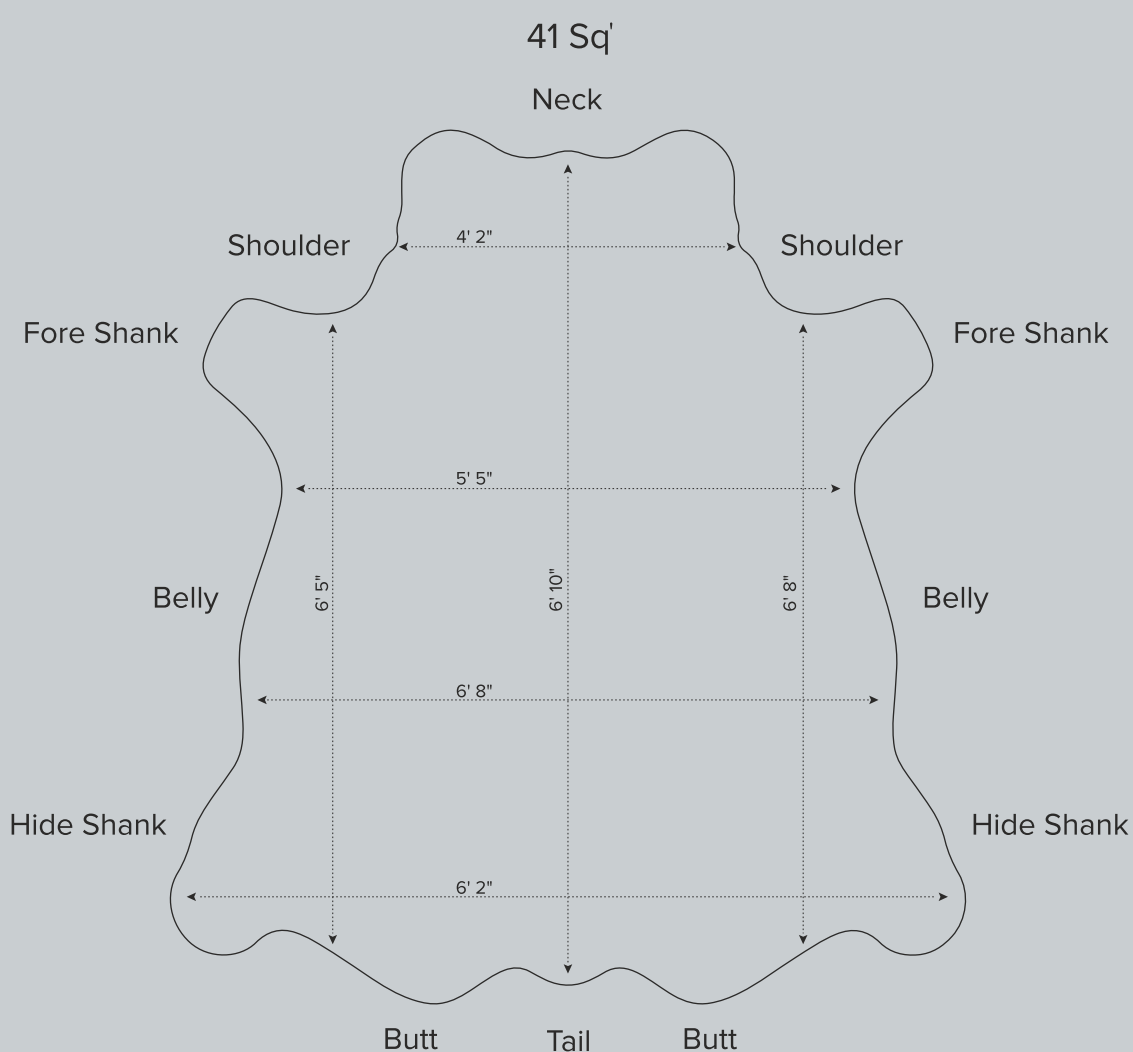

Procurement Guide :

Leather Upholstery Could be ordered as per no. of hides or by the Square feet/inclusive maximum no. of hides in ordered square feet area. Hides normally vary in size from 35-45 Sqft. and trimmed to minimize wastage. The colours of hides may vary from batch to batch.

The Diagram represents the shape of a typical hide. Measuring approximately 40 Square Feet / 3.71 Square meter.

A Linear meter of 50"-54" fabric is equal to 18 Square feet or 1.67 Square meter of leather.

One square meter is equal to 10.763 Square feet.

Why Mashak Piper :

Quality

Adhere all export quality testing parameter from raw hide selection to finishing & quality check.

Customization

100% match with swatches of Synthetic Leather/Leatherette/PU leather/Genuine Leather.

Delivery

Fastest delivery of customized & regular products.
